

– Prevention Checklist

Stay Safe Online: Student Checklist

1. **Lock Your Social Profiles:** Set Instagram and Facebook to "Private." Only accept requests from people you have met in person.
2. **The 24-Hour Rule:** Never post or reply when angry. Bullies thrive on your emotional reaction; staying silent is often the strongest defense.
3. **Screenshot Everything:** If you are being harassed, do not delete the messages. Save them as evidence for college authorities or the police.
4. **Use "App Lock" for Privacy:** Use biometric locks on your gallery and messaging apps to prevent someone from accessing your private photos if they borrow your phone.
5. **Audit Your Tagging Settings:** Change your settings so that you must manually approve any photo someone else tags you in.
6. **Secure Your Accounts:** Use Two-Factor Authentication (2FA) on your email and social media to prevent "identity takeover" by bullies.
7. **UPI Safety – PIN Privacy:** Never share your UPI PIN with anyone, even if they claim to be from "Bank Support." No legitimate authority will ever ask for it.
8. **UPI Safety – Scan to PAY, Not RECEIVE:** Remember that scanning a QR code is only for *sending* money. If someone asks you to scan a code to "receive a prize," it is a scam.
